D8505150	Upholstery nozzle 12 cm (optional)
D8505160	Accessory kit

Simple and easy to use

The machine can be changed from deep extraction to interim clean simply by changing the chemicals and flipping a switch. Using the machine in a push or pull motion allowing the end user flexibility in their application. A large variety of accessories allows covering added cleaning tasks.

Reliability and high performance

TASKI procarpet 45 has been designed with the reliability found on all our floor care machines. TASKI has developed this machine using our expertise in vacuum pick-up and chemical application to design a high performance carpet cleaning with excellent results.

Flexible application

TASKI procarpet 45 allows users to select the cleaning application that best fits their needs based on turnaround time and soil levels. The machine can be set-up for deep cleaning extraction for heavy soils or restorative type cleaning application and also be set-up for interim cleaning using our specifically formulated encapsulation chemical.

Lower total cost of ownership

The machine allows customers to control all carpet cleaning activities and select the application that best fits their needs. Utilising interim cleaning will help to extend the time between deep cleaning activities keeping carpets looking better longer without extended dry times.

Technical data	
Productivity (extraction)	300 m ² /hr
Productivity (encapsulation)	445 m ² /hr
Working width	45 cm
Solution tank	45 L
Recovery tank	45 L
Cord length	15 m
Rated voltage	230V/50 Hz
Dimensions (L x W x H)	820 x 560 x 860 mm
Machine Weight (empty)	55 kg
Sound level	<70 dB(A)
Brush motor	650 W
Vacuum motor	1000 W
Brush speed	1000 rpm
Brush pressure	10-17 kg
