

Virex® II

Hospital Grade Disinfectant Cleaner & Deodorant - Concentrate

Description

Virex II is a quaternary-based Hospital Grade Disinfectant and deodoriser effective against a broad spectrum of pathogens including MRSA, VRE, Pseudomonas, E.coli, HBV, HIV-1, Influenza A, Avian Influenza, Human coronavirus 229E.

Kills SARS-CoV-2 (COVID-19 virus).

Virex II is designed for cleaning and disinfecting hard non-porous surfaces found in hospitals, nursing homes, child care centres, schools and medical laboratories where disinfection and prevention of cross contamination are critical.

Features

- The optimal blend of quaternary ammonium compounds, wetting agent and chelant makes it effective as a disinfectant against a wide spectrum of micro-organisms
- Virex II is a Hospital Grade Disinfectant

Benefits

- Effective against a wide spectrum of micro-organisms which is ideal for sites where disinfection and controlling cross contamination is of prime importance.
- Kills the organisms that cause odours and works as an odour counteractant to further eliminate odours.
- Highly concentrated formula provides excellent cost in use
- Low odour, non-rinsing formula.

Application areas

- Healthcare
- Education - child care centres
