TASKI® TASKISUM MOP

Single Use Microfibre Mops

Key advantages

- 99.9% bacterial removal
- Premium disposable microfibre
- Excellent removal of dust and dirt
- Can be used dry or wet

Benefits

- Superior cleaning performance
- Convenience of disposables
- Performance comparable to washable textiles
- Outstanding reach and feel

Description

TASKISUM Single Use Microfibre Mops are suitable for customers who demand hygienic cleaning that only microfibre can offer, but do not have the necessary laundry facilities. These mops offer the convenience of single use, combined with excellent cleaning performance. The dense cellulosic core can store and distribute more liquid than a typical disposable, covering up to 20m².

TASKISUM premium single use mops have been tested and proven to remove 99.9% of bacteria from the surface, helping to prevent cross contamination in critical hygiene areas.

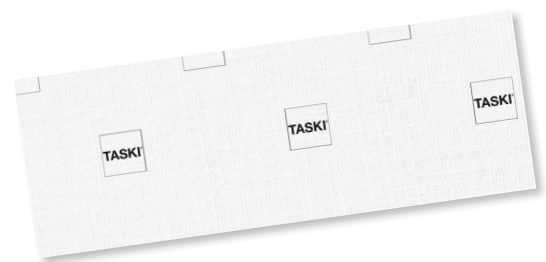

TASKISUM mops can be used dry or damp and can be pre-wetted manually onsite.

For best results, use in combination with TASKI Jonmaster Ultra handle and frame, and TASKI Trolley accessories.

Instructions for use

The mops are delivered dry and can be pre-wetted manually onsite.

- Connect mop to frame, logo side up
- After use, remove the mop from the frame and dispose
