What is a J-Fill Quattro Select?

Quattro Select Unit

J-Fill Product

Quattro Select is a lockable unit which stores four super-concentrated chemicals simultaneously, simply turn the smart valve selector to the desired product and begin filling.

The unit offers two flow rates to make bucket and trigger filling easy.

Colour-coded super-concentrated products make training easy, and with no neat contact of product, it offers user safety.

Training Video

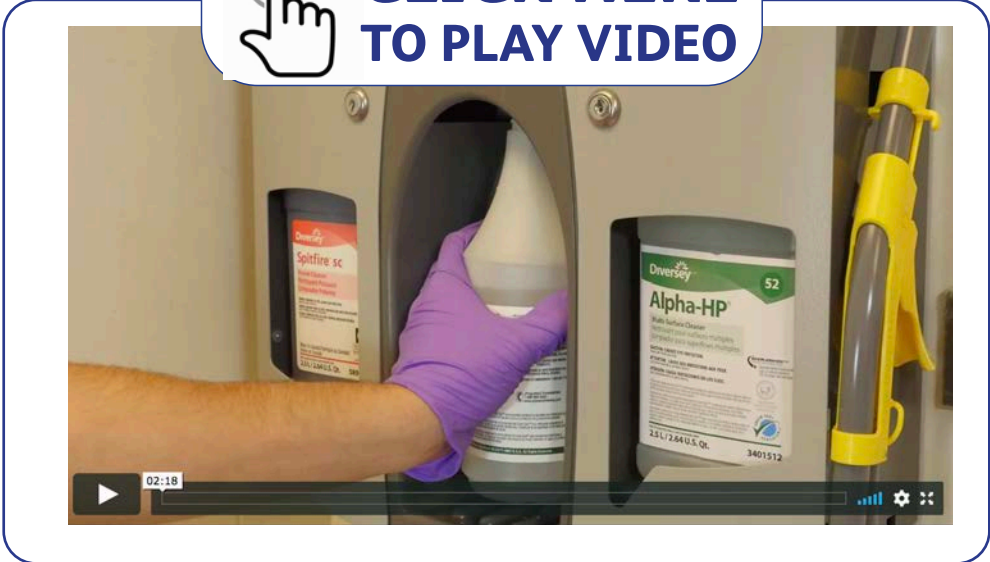

Operation Instructions

The water connection method shown in the video's does not comply with local regulations. The water source must be either connected to a cold water or hot water supply only.

Diversey's purpose is to protect and care for people every day. Diversey has been, and always will be, a pioneer and facilitator for life. We constantly seek to deliver revolutionary cleaning and hygiene technologies that provide total confidence to customers across all our global sectors. These include: facility management, health care, hospitality, retail and food service; in addition to food and beverage. Diversey is a provider of cleaning, sanitation and maintenance products, systems and services that efficiently integrate chemicals, machines and sustainability programs. Everything we do is based on the implicit belief that cleaning and hygiene are life essentials and that what we undertake constitutes a vital service.

Harnessing over 95 years of expertise and knowledge, Diversey develops cleaning technologies that save lives, providing a tailored, customer-centric approach that empowers sustainable solutions. Protecting and improving the environment, we operate with our customers' needs at the heart of everything we do. Diversey's ethical commitment is implicit in all our products and everyday relationships with our staff, our customers, and our planet. These ethics drive our commitment as pioneers of the future and creators of connection and innovation.

The Internet of Clean™ is central to our business, connecting minds with machines to ensure we turn cleaning and hygiene data insights into effective operations and generate respect for human capital. Diversey contributes to significant productivity improvements, lower total operating costs and brand protection.

Diversey is headquartered in Fort Mill, SC, USA. For more information, visit www.diversey.com or follow us on social media.

Diversey has been, and always will be, a pioneer and facilitator for life. We constantly deliver revolutionary cleaning and hygiene technologies that provide total confidence to our customers across all of our global sectors.
