

# Jonmaster™ Mop Frames

## The new ultra generation!

### Key advantages

- ▶ Robust
- ▶ Easy replaceable velcro strips
- ▶ Light weight
- ▶ Unique click-fit & locking device

### Benefits

- ▶ Durable, hard-wearing
- ▶ Easy handling
- ▶ Ergonomic mopping
- ▶ Effortless fixation & multifunctional

The new ultra generation of Jonmaster handles & frames, comprising Telescopic Handles, Frames and an Interior Mop Handle, has been especially designed for the professional Jonmaster system, and to be even more ergonomic and easier to use than the old range.

The robust Jonmaster Ultra Mop Frames are light-weight and thin to enable the operator to travel beneath low surfaces. The Ultra Mop Frames, with exchangeable velcro slides, have a new easy click-fit mechanism enabling effortless fixation with the Ultra T-Handles and Ultra Flex T-Handle. The unique integrated locking device regulates the speed at which the mop frame turns, simplifying mopping of walls and ceilings. The smooth surface of the frames makes it easy to wipe off and to keep clean. The protective plastic part at the side of the frame and velcro slides can easily be removed, cleaned or replaced. All frames are autoclavable.

### Application

# Jonmaster™ Mop Frames

## Technical Data

Description		Description	
Material	aluminium (Alu), polyethylene (PE), polypropylene (PP)	Mop Frame 25 Size / Weight	240 x 88 x 46 mm 200 gr
