

**TASKI**

## TASKISUM Single Use Microfibre Mop

### Key Advantages

- 99.9% bacteria removal
- Premium disposable microfibre
- High quality microfibre material
- Excellent dust and dirt pick-up
- Can be used dry or damp

### Benefits

- Superior cleaning performance
- Convenience of disposables
- Comparable performance as launderable textiles
- Excellent reach and feel

### Description

TASKISUM Single Use Microfibre Mops are for customers who demand hygienic cleaning that only microfibre can offer, but find it hard to organise the necessary laundry logistics.

These mops offer the convenience of single use, combined with excellent cleaning performance. The dense cellulosic core can hold and distribute more liquid than a typical disposable, covering up to 20m<sup>2</sup>.

TASKISUM premium single use mops have been tested and proven to remove 99.9% of bacteria from the surface, helping to prevent cross contamination in critical hygiene areas.

The TASKISUM mops can be used dry or damp and can be pre-wetted manually on site.

For best results use in combination with TASKI Jonmaster handle and frame, and TASKI Trolley accessories.

## TASKISUM Single Use Microfibre Mop

### Use instructions

The mops are delivered dry and can be pre-wetted manually on the site.

- Connect mop to frame logo side up.
- After use remove the mop from the frame and dispose into refuse bag.
