

TASKI®

TASKI® Procarpet 45

45cm carpet cleaning system

Features

- Reliability and high performance
- Flexible application
- Lower total cost of ownership
- Simple and easy to use

Reliability and high performance

TASKI procarpet 45 has been designed with the reliability found on all our floor care machines. TASKI has developed this machine using our expertise in vacuum pick-up and chemical application to design a high performance carpet cleaning with excellent results.

Flexible application

TASKI procarpet 45 allows users to select the cleaning application that best fits their needs based on turnaround time and soil levels. The machine can be set-up for deep cleaning extraction for heavy soils or restorative type cleaning application and also be set-up for interim cleaning using our specifically formulated encapsulation chemical.

Lower total cost of ownership

The machine allows customers to control all carpet cleaning activities and select the application that best fits their needs. Utilizing interim cleaning will help to extend the time between deep cleaning activities keeping carpets looking better longer without extended dry times.

Simple and easy to use

The machine can be changed from deep extraction to interim clean simply by changing the chemicals and flipping a switch. Using the machine in a push or pull motion allowing the end user flexibility in their application. A large variety of accessories allows covering added cleaning tasks.

TASKI Procarpet 45

Technical data

Productivity (extraction)	300 m ² /hr	Dimensions (L x W x H)	82 x 56 x 86 cm
Productivity (encapsulation)	445 m ² /hr	Machine weight (empty)	55 kg
Working width	45 cm	Sound Level	< 70 dB(A)
Solution tank	45L	Brush motor	650W
Recovery tank	45L	Vacuum motor	1000W
Cord length	15m	Brush speed	1000 rpm
Rated voltage	230V/50 Hz	Brush pressure	10-17 kg

Additional features

Carpet Wand and Hose	Can be used for hard to reach areas and quickly connects to the TASKI procarpet 45.
Flexible Handle	Allow users to switch from pull to push using TASKI ergonomic handle. The user can also engage the floating handle option based on their comfort level.
Hand Tool	Can be in combination with the wand and hose to convert the attachment for upholstery cleaning or can be used in combination with the recovery hose.
Easy Brush Access	The brush can easily be removed from the side for cleaning and replacement.
Parking Lever	The parking lever lifts the brush off the floor when storing the machine to prevent damage to the brush. This also allows users to leave the brush attached while the machine is stored.
